

**Panhandle Regional Planning Commission's (PRPC)
Panhandle Regional Residential Safe Room Rebate Program – Phase II**

Effective January 6, 2012, the PRPC will temporarily suspend the acceptance of applications for safe room rebates under the current phase of the Panhandle Regional Residential Safe Room Rebate Program. The program will be re-opened in February at which time, the third and final call for applications under this current phase of the program will be issued.

This brief program intermission will allow the PRPC to clear up the back-log of applications currently pending action and assist area shelter installers in catching up on their workload in advance of the final Phase II program call.

As currently planned, the Phase II – Round 3 application packet will be made available during the week of February 6, 2012. For more information about the Regional Residential Safe Room Program, please contact Elizabeth Thomas, PRPC Regional Program Coordinator, by phone at (806) 372-3381 or by email at ethomas@theprpc.org.
