

SENIOR PLANET

FROM **AARP**

FREE Technology Classes for Adults 60+!

The **Area Agency on Aging of the Panhandle** is offering Senior Planet classes from AARP to help older adults use technology to learn new skills, save money, get in shape, and make new friends.

Upcoming Class: Using Voice Assistance

In this hands-on workshop explore how voice assistants like Siri, Google Assistant, and Alexa can make everyday tasks easier and more accessible. We'll cover popular devices, demonstrate key features, and offer guided practice so you can try it out for yourself—whether it's setting reminders, using voice-to-text, or controlling smart home devices. This session is great for anyone interested in learning how voice technology can help with convenience, accessibility, and even a little fun.
